# 1. MRO NOTES ONLINE ALERT

## 1.1. Enhancement Overview

This enhancement provides an online alert to the user. The alert is in the form of three asterisks next to the drug test status. The asterisks indicate the MRO has typed information into the note section of the results.

## 1.2. System Changes

### 1.2.1. MRO Adds Note

The process begins when the MRO adds anything to the 'Report Notes' section of their report.

### 1.2.2. QIS Results Asterisks Display

The Drug Test status will have three asterisks to the left of the drug status if the MRO has added notes (see Figure 1)

Figure 1

The screenshot shows the Quest Diagnostics Employer Solutions interface. At the top, it displays 'DEMO USER' with a 'Switch to MRO view' link and 'Current User: grayb01' with a 'Logout' link. The main navigation bar includes 'Tracking/Results', 'Ordering', 'Randoms', 'Reports', and 'Profile'. A left sidebar contains navigation links like 'Search', 'Pending', 'Recent Activity', and 'Enter Onsite Results'. The main content area is titled 'Recent Activity' and shows a table of drug test results. A red arrow points to the 'Drug Test' column, highlighting the status 'Complete-Negative' and 'Complete-Positive', both preceded by three asterisks (\*\*\*) to indicate MRO notes.

Print	Images	Primary ID	Name	Account#	Reason	Req#	Type	Date Collected	Date Reported	Drug Test

**1.2.3. QIS Displayed MRO Note**

In the MRO module, the MRO makes notes in the REPORT NOTES which then shows up under COMMENTS on the actual report when the final disposition is sent to QISII. (see Figure 2)
