Walking through the front door at Quest Diagnostics always gives me a deep sense of satisfaction. The Lenexa, KS laboratory is the largest single-site workplace drug testing laboratory in the country and it has constant currents of people working to keep our standards high.

People in each of our laboratories work in unison to create efficiencies, leverage best practices, and sustain our world-class operations. If challenges arise, we quickly adapt and work towards a solution that we can be proud of. I am a firm believer in thoughtful execution over blindly working hard. We succeed through strategic thinking that gives us focus and maximizes our talents towards the greater goal of providing the highest quality service for our customers.
